

## Subject Name: Software Development 3

### Assessment Task 3: Web Service Presentation

#### 1. Assessment Task Purpose

This assessment item involves the creation of a presentation involving some significant aspect of your programming task (Assessment Task 1) for SD3.

#### 2. Assessment Task Format

The presentation may be in any format for which there is a freely available player that runs on Microsoft Windows 7 or Linux. It should run not more than 10 minutes.

#### 3. Assessment Task Topic

The aim of this assessment item is to give you a chance to highlight and discuss any aspect of your programming task which you thought was novel, challenging, exciting etc. In other words, something that was not explained in the subject's slides and workshops, but you had to persevere on in order to complete the project. This may be a specific technology, the overall architecture of your project, or some technique that you used which helped significantly in the project (e.g. unit testing).

#### 4. Assessment Task Submission

Your essay paper may be submitted in Microsoft Word, or PDF formats for inspection and marking. The file name should be INFT574Ass3CITxxxxxx.aaa where xxxxxxx is your CIT student number, and aaa is either doc or pdf. Submissions are to be made through CIT eLearn.

#### 5. Assessment Task Submission Date

The final submission must be made before Midnight on Wednesday 3rd June 2015.

#### 6. Marking Rubric

Assessment Item	Pass Grade	Credit Grade	Distinction
Presentation (100%)	< 10 minutes duration	Clear Ideas	Excellent use of
	Format with freely available player	Well-presented	chosen medium
	Submitted on time	Good format	Excellent flow
	Presenter introduced to the audience	Background & discussion	Excellent details
	Reasonable quantity of text on each slide/section	Quality of visual aids	Excellent justification
